

Instructions

Knows Your Name™

1. Type and select your name of choice in the text box. You can view a pull-down of names by letter, or simply enter your desired name. (See example below). After you have selected a name, click the **“PLAY”** button to hear a preview of the name.

2. Review the License Agreement and click the **“ACCEPT”** button to proceed. Then click the **“DOWNLOAD NAME”** button to download your selected name.

Instructions

Knows Your Name™

3. Depending on your Internet Browser settings, you may receive a security prompt. To continue the downloading process, simply click on the security tool bar at the top of your browser and select the **“DOWNLOAD FILE”**.

4. Click the **“RUN”** button to proceed.

NOTE: Some browsers may prompt you to save the application instead of providing a **“RUN”** option. Proceed to **“SAVE”** the file to your desired destination. After the download process has completed, simply locate and launch the saved file. Then proceed with step 6 (below).

5. Click the **“RUN”** button again.

6. Click the **“NEXT”** button to proceed.

7. Click the **“FINISH”** button.

Instructions

Knows Your Name™

8. Congratulations! The application has successfully downloaded and you are ready for your final step!

Click the **“PERSONALIZE”** button to transfer the selected name to your Baby’s First Knows Your Name™ doll. Make sure your doll is properly connected to your PC with the required USB cable before proceeding (USB cable sold separately).

- ! You are done!
Unplug your doll from your computer and you can now start enjoying your Baby’s First Knows Your Name™ doll!
